## ‘HOOGERMAN’, SITE-SPECIFIC PER AL MACBA

**Erre que erre danza** presents a site-specific about its show ‘Hoogerman’, created specially for the foyer of the Barcelona Contemporary Arts Museum, within the frame of the programme **EXPERIENCE MACBA**, created to show the Museum and contemporary art from another perspective. **HOOGERMAN** is a dance performance inspired by the work of digital artist Han Hoogerbrugge. A piece that seeks to embody the digital animation works of this artist and adapt it into scene language. If Hoogerbrugge is the digitization of a man with his obsessions, anxieties and fears, Hoogerman aims to be the re-conversion of the virtual world into something organic, around the body. In this occasion the piece will be displayed in its performative version, nude of technical resources and in which Hoogerman be integrated into the museum as a living museum work.

Saturday, 31<sup>st</sup> of May at 19:00 in the Foyer of MACBA, Barcelona.
