Pre-premier of RESET by Erre Que Erre in Sismògraf Festival

Reset is a show that talks about the renewal, the rebirth, the reinventing, the resurgence. If the Renaissance placed in the centre of the universe the man, **Reset** puts at its centre the body, movement and dance. With this show/performance Erre que Erre celebrated his special tribute to dance, the body and its possibilities after 20 years in motion.

Reset is the journey of five characters from darkness to the light going over different universes in which their bodies are pierced by the music and the space is transformed with them. It is the rebirth of images, the restart of motion, the reactivation of encounters, the reappearance of the group, the reinvention of concepts.

Official premiere at the Mercat de les Flors, in Sonar Festival, Barcelona 2016
