## ‘VIATGE AL CENTRE DE LA TERRA (S.XXI)’

Roseland Musical / Franc Aleu

### TEATRO BUERO VALLEJO

**Dance and multimedia - Show recommended for an audience from the age of 6 years.**

Two sisters, Eva and Ava, decide to follow in the footsteps of their ancestor and go to Iceland, where they meet Hans, the guide who will lead them on a journey to the centre of the planet. The two sisters are very different: one lives in the world of science and technology; whilst the other is romantic, a true humanist. But their different knowledge will be most useful during a descent in which they will encounter amazing beings and landscapes, as well as cultural residues that humanity has left behind over time. Our dancers-cum-leading actors will perform classical choreographies, breakdance and contemporary dance as they travel through underground worlds produced using digital imagery. To this end, Franc Aleu, an audiovisual artist who has worked in theatre, dance and opera productions seen on some of the world's most famous stages, creates all kinds of moving images and virtual characters.

In short, a Jules Verne for the twenty-first century.
