LA MORT', AT THEINUND'ART FESTIVAL (GIRONA)

La Taimada presents the piece **La Mort** at the Inund'ART Festival in Girona, at the 14th 'Mostra d'Art Contemporani amb tots els Sentits'.

La Mort is a journey around an omitted theme in our present life. It proposes to face from the visual a calm, calm and delicate journey around death. It is a performance full of beauty and delicacy that leads to intimate reflection. The fragility of human nature lives within the images posed by the company, with images of a great dreamlike charge, with unconscious and subliminal messages. The movement that moves the bodies is internal, subtle and honest.

In Castanyes Square (Girona), Saturday 1 of June, at 18 h and 20 h.
