PERFORMANCES OF COBOSMIKA COMPANY DURING AUGUST

-10th August, at 22:00h, **Coblatronic & CobosMika, Itinerant Tour** from Theater La Gorga to the Plaza Sant Pere of Palamós.

A pagan ceremony of worship of love and peace based on an ancient Mayan ritual, welcomes the attendees.

Coblatronic: a quality Latin combo with cobla sound, with metals, percussions and a singer/actor who along with the dancers of CobosMika Company will be willing to make the hips move the passersby with their repertoire based on small jewels of Latin American music.

- Premiere **scRakeja't 2.0**, 23th August, at 20.30 h, Theatre la Gorga of Palamós.

In order to the 20th anniversary of CobosMika, the company will revisit **scRakeja't**, the most successful show of his trajectory. **scRakeja't 2.0** fuses contemporary dance and urban dances from a juice of words invented during the creation process:

Raskeja't = scratch + Escakeja't = disappear + Scrakeja't = Pop bones

The combination of these actions inspires the choreographies and rhythms of the show, a dance story that brings contemporary language to young people through the experimentation of sensations and emotions caused by the movement of the body. **scRakeja't 2.0** drink from the good characteristics of the original but with a vision adapted to the new trends and the technological-virtual madness that we live currently.
