## PERFORMANCES OF ROSELAND MUSICAL IN JULY

GEOMETRIA

PINOCCHIO

### - GEOMETRIA IN GREC FESTIVAL 2020

“A circle, a square and a triangle are the three basic figures of the variable geometry that the dance movement transforms into dynamic and fleeting images, amplified with 3D video projections and public interaction.

A visual experience to enjoy a fundamental principle present everywhere: original music and choreography, which evolve to the organic essence of the form.

Linear and circular structures that create the vertices where the arts converge: the imaginary and fantasy of images where the dancers generate all the predetermined variations”. *Jordi Sora -Recomana- / LaSala. Sabadell*

- 8 and 9 July, at 7 p.m., at Sala Ovidi Motllor - Mercat de les Flors. [Festival GREC 2020](#)

### - PINOCCHIO IN CRUÏLLA XXS FESTIVAL

An innovative and visually reliable show; this piece is inspired by the novel written by Carlo Collodi two centuries ago.

For an hour, the mythical character comes to life thanks to the creative love of his father, the famous Geppetto. The latter builds Pinocchio with cans, newspapers and other recycled materials.

Jiminy Cricket, in its virtual appearances, as always symbolizes the consciousness that wants to prevent Pinocchio against his temptations.

Tangled in situations renovated from the classic tale, Pinocchio moves through an animated mutant scenery enveloping the viewer in a fantasy world full of references, feelings and emotions.

- 12 July, at 7.30 p.m. , at Teatre Victòria. [Festival Cruïlla XXS](#)
