## PERFORMANCES MARCH BY ROSELAND MUSICAL

**GEOMETRY**

Roseland Musical have two important meetings with the show **Geometry**: the first, on March 6, at 8 p.m., at the Juan Bravo Theater (<http://www.teatrojuanbravo.org/danza>) in Segovia; and the second, on March 20, at noon, at the Auditorium of Sant Cugat del Vallès (Barcelona), within the framework of the Dansa Metropolitana Festival (<https://www.dansametropolitana.cat/>).

The audience will enter a magical and immersive universe, where a triangle, a circle and a square draw geometric figures in space thanks to the language of contemporary dance, acrobatics and urban dance. A show that will make children think that they have entered a poetic and futuristic video game, surrounded by laser beams, moving lights and 3D fantasies.

**Geometry** is a production of Roseland Musical, with the collaboration of the Miguel Hernández space in Sabadell and with the support of the Department of Culture of the Generalitat de Catalunya, the Ministry of Culture and Sport, the Institute of Culture of Barcelona, the Ramon Llull Institute and the Diputació de Barcelona.
