DIFFERENT PERFORMANCES BY CIA. VERO CENDOYA IN APRIL

Parlem-ne

Cicatrius (o contrapàs de mamuts i altres feres)

This April, Cia. Vero Cendoya presents two stage productions that will leave no one indifferent.

Parlem-ne will be performed on the 11th, at 7.30 p.m, at [Centre Cívic Parc Sandaru](#), as part of the Barcelona Districte Cultural. The piece delves into relationships and couple conflicts, and, by extension, family life with a teenager.

The second event will take place on the 27th, as part of the Festes de la Primavera in l'Hospitalet de Llobregat. At 12.45 p.m. in Parc de les Meravelles, audiences can enjoy **Cicatrius (o contrapàs de mamuts i altres feres)**, a production with the company's unmistakable signature. The show is presented as a collective celebration of overcoming wounds. Just like the scientific healing process, which is a perfect collaboration between the body's own systems, the company has created this piece where the performers work together to tell the story of a wound.
