

ASSOCIACIÓ ARTÍSTICA LAS LO LAS PRESENTS TWO DANCE WORKS IN SALT AND GIRONA

Associació Artística Las Lo Las will present two works in Salt and Girona (Girona) during October, with dance and collective creation at the heart of both proposals.

On October 3 at 5:00 pm, the company will present **Traç a l'inconegut** at Plaça del Teatre (Plaça de Sant Jaume) in Salt (Girona). The piece is the result of the association's community dance project, developed during June and July. The work invites audiences to explore their own boundaries, recognise them, embrace them and discover new ways of looking at them. Through traces, bodies and silences, it proposes a journey into the unknown, reflecting on the boundaries that must be preserved and those that need to be crossed in order to open up new paths.

On October 28 at 6:30 pm, Plaça del Pallol in Girona (Girona) will host **Càpsula d'Estries**, a dance and music performance by Associació Artística Las Lo Las, featuring Sònia Zurriaga Jardí and with the collaboration of Factoria Cultural Coma Cros. **Estries** stems from a desire to name the fissures that the patriarchal system has left rooted in our bodies. The work focuses on how shared experiences can bring about meaningful individual and collective change and, through silence, voice and dance, make us bearers of an intense human experience. Admission will be free.
