

LACERDA BRINGS ‘EL BAILE DE LA ZURDA’ TO VIU MONTJUÏC AND FESTIVAL DELIRI

Throughout October, LaCerde will present **El Baile de la Zurda** at two events in Barcelona and Vilanova i la Geltrú (Barcelona): Viu Montjuïc and Festival Deliri.

On October 3, the company will take part in [Viu Montjuïc](#), an initiative that brings the cultural activity of Montjuïc closer to audiences through a special programme of events. LaCerde will present **El Baile de la Zurda**, a piece inspired by dance marathons and Latin American rhythms that explores dance both as movement and as a festive, collective experience. Directed by Edward Tamayo, the piece is based on a looped choreographic composition system that the company calls “mantras”, focusing on the relationship between the feet and pelvis, space, rhythm and the group. **El Baile de la Zurda** thus becomes a tribute to dance, to the desire to keep dancing despite everything, and to the Latin American roots of its creators. The second date will be October 17, when LaCerde brings **El Baile de la Zurda** to [Festival Deliri](#) in Vilanova i la Geltrú (Barcelona), adding another stop to the journey of a piece that places celebration, the body and community at the heart of the performance experience.
